

## **JOB DESCRIPTION FOR ENERGY CONSULTANT POSITION AT BOSTON PACIFIC**

### **COMPANY DESCRIPTION**

Boston Pacific Company, Inc. is a highly specialized consulting firm serving the electricity and natural gas sectors. For over 22 years, we have provided responsive and insightful advice to the full range of stakeholders in the energy industry on high-profile projects involving cutting-edge issues. We are set apart by the depth and breadth of our experience as well as the quality and clarity of our work. Please visit our website at [www.bostonpacific.com](http://www.bostonpacific.com) for more information about our company and our work.

Boston Pacific seeks to hire Energy Consultants with 2 to 4 years of experience who can significantly contribute to high profile consulting projects. Our size and specialization in the energy industry gives Energy Consultants the unique opportunity to rapidly gain valuable experience in current energy matters, have significant client contact, and have the chance to make a real impact in the energy industry.

While the duties and responsibilities will vary from project to project, Energy Consultants can expect to work on projects that are similar to the following examples of recent engagements:

- Assess the market and financial potential of power projects applying for DOE’s loan guarantee program under the American Recovery and Reinvestment Act (ARRA)
- Monitor wholesale energy procurement processes for hundreds of millions of dollars in several States across the country
- Evaluate the technical and commercial feasibility on geothermal generation projects in Latin America, including the development of detailed financial models
- Advise State Commissions on the cost and performance of clean coal power projects seeking their approval
- Monitor and independently evaluate proposals for renewable resource power projects
- Prepare a State of the Market Report for a major regional transmission organization with members in nine states
- Advise a State Commission on the largest ever leveraged buyout of an electric utility

### **QUALIFICATIONS**

- 2-4 years work experience, preferably in the energy industry
- Consulting experience a plus
- Degree in business, engineering, math, physical sciences or economics. Masters degree a plus
- A real interest in making a difference in energy sectors through smart, hard work

- Ability to lead small teams
- Excellent academic record from a top university
- Excellent oral and written communication skills
- A focus on providing only the highest quality of service to clients
- Self-starter that is willing to take on and accept significant responsibility
- Strong analytical skills

Boston Pacific offers competitive salary and benefits. We are located in downtown Washington, DC.
